

ROE MOTORS ENJOYS GIVING BACK TO THE COMMUNITY.

Molly, a registered therapy dog, touch lives and improves health through the healing power of animals. As the Roe Motors mascot, Molly enjoys visiting with Steve Roe to help patients at Asante Rogue Regional Medical Center, at the Oregon Youth Authority and local facilities.

The Roe Family was selected for the 2015 OSU Austin School of Business as Family Business of the Year for the Family Harmony category. One of the major components of this award was for our long-time community involvement by the Roe family.

Ross N. Roe

Ross N. Roe, founder of Roe Motors, passed away at 91 years old in March 2019. Among his last words were:
• **Be good, remember be good.** • **Be nice to people.**
• **There are always people very much in need.** • **Tell our friends.**
Roe Motors is proud to continue his legacy of community involvement for the betterment of our community.

Roe Motors is proud to support our local music, arts and entertainment community. Amy Fox, a Roe Motors salesperson, has appeared in local plays, including Fiddler on the Roof in 2018 with Rogue Music Theatre. We also enjoy supporting other local organizations such as Barnstormers, the Rogue Valley Symphony and Grants Pass Museum of Art.

Roe Motors has sponsored an American Cancer Society Relay for Life Lacing Up for Life team for the past ten years. The dealership, employees, customers and friends contributed over \$11,000 in 2018 to help the fight against cancer.

Retired County Forester Vic Harris is pictured instructing local Scouts in proper tree planting. In February 2018 the 29th Annual Josephine County Tree Plant was held on county forest land off Stringer Gap Road. This is the largest tree plant in Oregon. Over 22,000 youth have participated since 1990 and planted over 100,000 trees. The tree plant was started by the late Ross N. Roe and will now be known as the Ross Roe Memorial Tree Plant.
