What's up with the lizards?

Those cute lizards on the ceilings and walls are called geckos. In the Hawaiian Islands these little guys are considered good luck when they hang out in your home — they are also good at insect control.

Why the Hawaiian decor?

Tami and David Skeen lived on the beautiful island of Maui before moving to Southern Oregon. David was born on the island and frequently goes back to visit family. They wanted to share their love of the islands with the local Merlin community. The large Tiki figure in the main dining area is one of David's carvings.

Consuming raw or undercooked meats, poultry, seafood, shellfish or eggs may increase your risk of food borne illness.
