YOUR STARS THIS WEEK

Forecast for the week beginning XXXX X, 2024 BY STELLA WILDER

The coming week is likely to see routine events accelerated, for reasons that are both known and unknown, and those who are immersed in what is happening will find it necessary to charge ahead to take advantage of timing and circumstances conducive to success. Those who think they know better are likely to be proven wrong

proven wrong.

It's a good week to consider letting bygones be bygones, and forgiveness in all its forms will surely be encouraged, especially by those who have the most to gain through reconciliation. And it'll be best, too, for as many as possible this week to acknowledge past mistakes and oversights, and to pledge to work harder to avoid them in the future.

PISCES (Feb. 19-March 5) — The issues you must face this week are not being forced upon you, though you may feel you have no choice. The truth is that most are your own doing in some way. (March 6-March 20) — A face-to-face meeting early in the week sets the tone, but you may want to break with accepted norms and go your own way for reasons that are highly personal.

ARIES (March 21-April 4) — You can put many fears away for good this week, especially when you have been compelled to deal with one in particular upon which most of the rest feed. (April 5-April 19) — Now is no time to resist the urgings and suggestions of those who know what's going on better than you do. Stubbornness can only cost you this week, so avoid it!

TAURUS (April 20-May 5) — Whether implicitly or explicitly, messages will get through to you this week that will shape almost all of the work you have planned. Engage a partner! (May 6-May 20) — Whether something is unthinkable or merely impossible, you'll be dealing with it this week in ways that you will be hard-pressed to explain to others. Can you make changes?

GEMINI (May 21-June 6) — The lessons you've been resistant to in the past must be learned this week or you're almost certain to experience a costly personal setback. (June 7-June 20) — The pace will quicken this week and demand that you operate at greater efficiency to keep up. You cannot do what you've decided is undoable — until you do.

CANCER (June 21-July 7) — Progress is likely to be made in small increments this week — but it is still progress. You mustn't let anyone make judgements that belittle your successes. (July 8-July 22) — Competition between yourself and a rival may take on a very different sort of character this week, and this is likely because of the arrival of a third party. **LEO** (July 23-Aug. 7) — You can expect things to get rather nasty this week if you're unwilling to accept the possibility that you could have gotten something wrong. Take another look! (Aug. 8-Aug. 22) — One or two important issues will demand attention from you this week, and you may find yourself in a situation that requires you to turn your back on someone else.

VIRGO (Aug. 23-Sept. 7) — Any rest and

relaxation you've enjoyed recently is likely to be only a memory this week, as you may be compelled to pick up the pace and work hard at all hours. (Sept. 8-Sept. 22) — Communication with someone in authority is absolutely essential this week. You may wish to change the rules, but you can't do it outside of an official process.

LIBRA (Sept. 23-Oct. 7) — What used to be routine is something special at this time, and the week will unfold in a manner that proves surprising in more ways than one. (Oct. 8-Oct. 22) — Any attempt to hide your feelings this week will only work against you. You must be willing to reveal what's going on beneath the surface to anyone who inquires.

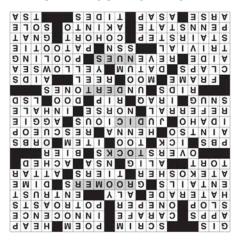

scorpio (Oct. 23-Nov. 7) — Take care that no one is able to put one over on you this week because you haven't kept up with an evolving situation. Get the facts — and study them! (Nov. 8-Nov. 21) — You're likely to trap yourself in a situation that requires you to operate on a different level this week. Take care that no one can get the best of you.

SAGITTARIUS (Nov. 22-Dec. 7) — You may find yourself fighting against your instincts this week — but that means, of course, that no matter what you decide, you will win! (Dec. 8-Dec. 21) — You mustn't make anyone else think that what you are doing is irreversible this week — and nor should you think it, either! Apply your energies to that which strengthens you.

CAPRICORN (Dec. 22-Jan. 6) — You may be single-handedly responsible for picking up the pace this week. Take care that you don't do so in a manner that puts you at a disadvantage. (Jan. 7-Jan. 19) — One idea leads to another as easily as can be this week, and you'll enjoy being the one that others turn to when they need some creative input. Where's it all coming from?

AQUARIUS (Jan. 20-Feb. 3) — You may be accused of waiting until the last minute to formulate a workable plan this week, but it's not the case. You've been percolating for a while! (Feb. 4-Feb. 18) — Time spent with a good friend gives you the opportunity this week to see things from another perspective that is just as valid as your own. A comparison reveals much.
